If your husband, wife, civil partner, partner or other adult dependant's income will be at least £1,000 less in tax year 2021-22 than it was in tax year 2019-20 you can apply for a current year income assessment. This means we would use their expected income for tax year 2021-22 instead of their actual income for 2019-20 when working out your grant entitlement. If you want to be assessed using expected income for tax year 2021-22 attach a separate piece of paper to your application to let us know.

You still need to complete this section with your husband, wife, civil partner, partner or other adult dependant's income for tax year 2019-20.

If you tell us you want to apply for a current year income assessment we'll send you another form to complete.
